Response Rate: **89.47**% (**17** of **19**)

1	the quizzes at the end of class
2	The way we interacted in class and how the class was engaging
3	The presentations were easy to follow, and if someone did not understand they could look at the presentations and figure it out and understand it.
4	The power points that the professor took the time to make. The quizzes at the end of every class, although they weren't always enjoyable, that definitely helped to retain the information learned in class each day
5	The most valuable part was gaining knowledge important to aspects that can be in my career.
6	The lectures were easy to understand and enjoyable to listen to.
7	The homework was a very good way to be prepared for exams and learn the materials.
8	Relating the information into real world situations. Understanding how it affects the world we live in.
9	N/A
10	Mid lecture questions helped alot with understanding materials
11	Learning the basics of macroeconomics
12	I enjoyed the lectures because they were engaging with the teaching style.
13	I don't fully understand the math aspects, but I honestly think this class has given me a better understanding of the economy.
14	Everything I learned in this course was valuable.
15	Everything
16	Everything, The mini exercises, the quizzes in the end, the feedback, and the support. Mr. Lei is/was a great teacher. very accommodating.
17	At the end of each lesson having the mini quiz to refine what we learned in class that day.

Q5 - Which aspects of this course were least valuable?

Instructions: *Please complete the following questions.*

Response Rate:	**73.68**% (**14** of **19**)

1	the least valuable aspect was the quizzes at the end of each lecture
2	nothing really thought everything was useful
3	none
4	n/a
5	The homework reinforces what is learned in class, but I feel if one pays attention in class then the homework is not needed.
6	The class quizzes each day for attendance seemed repetitive and that they didn't hold much value, as opposed to the homework. They would usually ask similar questions so for their to be two required outlets asking the same thing just seemed unnecessary.
7	Sometimes the class could move a little fast.
8	Sometimes it gets boring but it is what it is.
9	Nothing
10	Nothing was least valuable but sometimes the home works was a little confusing.
11	None.
12	N/A
13	I can't think of a specific aspect of what would be least valuable in this course. I will say I went into this course thinking it would be my most difficult and the one I liked the least, but it is actually not that bad and is one of my higher grades.
14	Daily quizzes
