3	Zoom and mastering
4	Used zoom tools to pop up questionnaires, utilized the drawing tool sometimes, and used personalized presentation notes that were easy to follow
5	The professor used zoom as well as Canvas for online quizzes and tests which made the course easy to follow. He made class meetings easy by creating a power point for each lesson as well.
6	Shared his screen with everything he was talking about
7	Powerpoints, and a document camera
8	Like initially said the powerpoint he used were what made the class easy to grasp and easy to follow. The quizzes at the end of the lecture honestly also helped me reenforce my knowledge that I had learned throughout the lecture.
9	Kahoot, slideshows, zoom polls
10	Interactive problems and presentations
11	He did so much! Used Kahoot, videos, recordings, examples, and many other interactive things that I thought were amazing because of the new asynchronous learning.
12	Funny and interesting slides
13	Expertly utilized Zoom to communicate with class and offer immediate feedback to questions. Utilized daily quizzes and a wonderful online homework system.

Q10 - What could the professor do in the future to make the class materials and online part easier to navigate and experience?		
Faculty:	**Lei He**	
Response Rate:	81.25% (**13** of **16**)	
1	nothing, he was really great!	🔍
2	everything was straight forward to follow	🔍
3	Nothing	🔍
4	Nothing	🔍
5	Nothing, he showed great care for his students and often offered extra credit and pushed back assignments when a mental break was needed. He consistently wanted to ensure everyone's understanding of the topics and adjusted his teaching style based on responses to his mid semester survey of his teaching	🔍
6	N/A	🔍
7	Maybe just more interacting which he started to incorporate towards the end	🔍
8	I think the online part was really well done.	🔍
9	I feel that given the current circumstances, he could not do much more to make the class and easier experience.	🔍
10	Honestly keep doing what you're doing as I had a smooth time with the class and look forward in to taking Macro with this strong foundation of Micro I learned.	🔍
11	Have less quizzes for us to scroll through	🔍
12	Continue offering extra credit, because for someone like me that's not really a strong test taker it definitely helps and I appreciated that and took every opportunity when it was given. Maybe slow down when going through the slides on a presentation, because sometimes it was difficult to keep up and take notes.	🔍
13	Break things up into modules.	🔍
