Q3 - Which aspects of this course were most valuable?	
<b>Response Rate:</b>	85.71% (18 of 21)
1	the quiz at the end of each class
2	getting an idea how the real world is and learning valuable things for our future.
3	The quizzes at every end of the lesson and homework's of each chapter.
4	The after class quiz and chapter assessments
5	Study guides to prepare for the exams
6	Overall, all the material I learned will be valuable in my understanding of the overall view of the economy and how certain things work. Specifically, I think the information about the government's role in the economy will be valuable to me in the future.
7	Lecture
8	Learning real-world economics terms. This helped me get an understanding of things I see on the news every day.
9	Learning important topics about economics such as; inflation, deflation, opportunity cost, and more.
10	Learning even just the basics of economics helped me understand things in the real world a lot. It was valuable to learn lots of different parts of economics.
11	Learning basic concepts of economics and enjoying a great professor.
12	It was nice to learn about how the economy works in a larger standpoint straying from specifics.
13	I thought the nearpods, kahoots, and quizzes were the most helpful. These were able to keep me engaged with the class.
14	I got to see real world examples of how economy affects the world around me.

15	I found the use of the application "nearpod" as well as the powerpoints to be the most valuable. They are what helped me learn the most.	
16	I enjoyed that Professor He created very fun and engaging presentations. The visuals that were implemented in the PowerPoints were so simplified that it was easy to learn and retain the information. I also think that the workload was fair and the lectures ran nicely. Professor He provided many resources that would help with assignments and exams. The opportunities for extra credit work was also greatly appreciated!	
17	GDP, inflation	
18	Access Homework

**Q5 - Which aspects of this course were least valuable?**

Response Rate:	80.95% (17 of 21)	
1	the textbook i never used it	
2	The textbook	
3	The quizzes at the end of every class.	
4	Nothing really, I thought everything was great.	
5	None	
6	N/a	
7	N/a	
8	N/A	
9	I enjoyed every learning aspect of the course! I think that the textbook would not be needed because Professor He does a terrific job at reciprocating each chapter, but unfortunately, the purchase was needed in order for homework assignments.	
10	I dont think its necessary to have to buy the entire textbook just to have access to the homeworks when we really dont use the textbook much.	
11	I don't believe that there is any aspect of this course that did not provide me much or hurt my understanding. All of it was valuable in some way.	
12	I don't have any least valuable aspects	
13	I did not like how I had to pay \$100 for the online textbook (which was never used) in order to complete the homework.	
14	I did not like the option of being able to take the quizzes at a later time because I would forget about them until the last minute. I liked taking the quizzes in class at the end of class because the information was still fresh in my mind and I did not have to worry about it later on.	
15	Homework and daily quizzes	
16	Did not utilize the book that much during the course, however the homework on Pearson helped a great deal with learning.	
17	Aside from being able to use the textbook to complete homework, it really did not serve any use to me since the instructor covered all material with adequate explanation in class.

Response Rate:	85.71% (18 of 21)	
1	loved the structure and felt it was a very fair class	
2	Very nice flow! Not difficult at all. I also enjoyed the visuals and diagrams on PowerPoint slides. Would take it again!	
3	Very good	
4	Very good, clear and excellent.	
5	This was my favorite class this semester. If you take Macro Economics, take Professor He. His PowerPoints are fun and easy to follow.	
6	The quality of instruction in this class was amazing. I found this class to be very reliable and educational.	
7	The quality of instruction in the class was very good. The professor might have a little of an accent, but I am still able to understand him clearly the whole class. I also liked how the professor would create a lecture video for us to watch or be on zoom when he was not able to make it to class some days.	
8	Super high quality of instruction.	
9	Overall, the instructor did a phenomenal job conveying the information to be taught and I feel like I really learned through the lectures.	
10	It was easy to follow and understand	
11	I thought the instruction was very good. The class was set up in a way that was very easy to follow and to know what to do. It was very easy to follow along in class as well as understand everything we were going through.	
12	I can tell Professor He wants his students to succeed in his class. He always asks us if we understand what he is saying and if we need anything explained in more detail. I do not find the material taught in the course difficult. He teaches from the PowerPoint very well because he explains everything in detail.	
13	He provided a great quality of instruction and was very clear on what was due and when.	
14	Great	
15	Great professor!	
16	Fantastic, my favorite professor this semester.	
17	Excellent	
18	Amazing professor, makes everything very clear to understand, fun power points with interactive aspects of class.	

**Q10 - How can the instructor improve the teaching of this course?**

Faculty: Lei He		
Response Rate: 80.95% (17 of 21)		
1	The instructor can improve on teaching this course by doing some little hands on activities during the class to help students understand the topics better. I did not have a problem understanding the topics, but there could have been other people who were really confused.	
2	Nothing, I think he did a very good job	
3	Not have us buy a \$100 online textbook in order to do homework, which is worth a large portion of our grade.	
4	N/a	
5	N/A	
6	More explaining when doing calculations.	
7	More class participation.	
8	Keep asking for feedback from students, preferences can change.	
9	Its great	
10	I think the instructor could implement more class activities and move a little bit faster through the course material.	
11	I think that the Professor's teaching style is very effective. I think it would also be nice to incorporate hand-on discussions in class like having someone come to the board or to have discussions on Canvas so that students become more comfortable with speaking in class. Nonetheless, the class was still very informative and engaging.	
12	I think he is an excellent professor. I do not see any areas that need improvement.	
13	I think are more ways to improve the course to make it excellent but so far I think the course is really excellent.	
14	I can not think of any ways that the instructor can improve the teaching of this course.	
15	Give more examples relating to the current economic situations here and around the world	
16	Continue his current methods with adding little jokes and easy to understand examples.
