----------	--------

**Response Rate:** 90.91% (20 of 22)

1	take it at a slower pace	
2	none	
3	The professor can improve this course by slowing down the lectures a bit.	
4	Speaking up would help. Having to answer all the nearpod questions for attendance is awful, doesn't benefit the class at all	
5	Slow down his teaching would be the only thing he could do to improve his lecturing.	
6	Maybe incorporate Excel into some of the algebra to make it easier. I was slow to learn some of the formulas.	
7	Making the power points more detailed	
8	Make the class a little more interesting, maybe have an increase in kahoot quizzes.	
9	Keep up the good work. Maybe find a better way that nearpod to rank participation.	
10	Keep it the same	
11	In all honesty it is hard to tell ways the instructor could improve, he kept everything very simple and engaging.	
12	I think instead of taking attendance through nearpod it would be better to take it yourself because there are sometimes glitches.	
13	I liked the adjustment of the quizzes being due hours after class ended instead of directly after class, so I would maintain that change.	
14	I honestly think the teaching is perfect. It's really easy to understand what we are learning about and pay attention in the class.	
15	I cannot think of anything. He genuinely wanted us to do well.	
16	He can always make sure the homework is open before opening the quiz. So that students that need extra help can practice.	
17	Having less quizzes during class.	
18	Hard to understand sometimes	
19	Give less timed quizzes at the end of class- but this was already fixed	
20	Add more to make it more interactive and interesting
