Q9 - Please comment on the quality of instruction in this class.

Faculty:	Lei He
Response Rate:	**91.67**% (**11** of **12**)

1	very clear and thorough
2	The quality was fairly good. It was an average class. I didn't find the content terribly difficult but the class was still fairly boring even with the nearpod engagement. I think that's just how an economics class can be though.
3	The quality of instruction in this class was above and beyond because we were frequently asked about pace and level of difficulty of the material.
4	Prof. He is a great teacher. I was worried about taking this class, but with his help I passed and learned a lot. He is easy to get a hold of, and with Covid there was lot's of communication necessary.
5	Lei He is a perfect professor. He gives you a lot of chances to succeed and improve your grade. He cares about you as a person.
6	Instructions for this class were very clear and easy to understand.
7	I excelled in this class and I believe that was due to the instructor.
8	He did a great job instructing.
9	He consistently asked if he needed to slow down and if everyone was following along with him so I would say he was a really good instructor
10	Good
11	Good but boring most of the time

Q10 - How can the instructor improve the teaching of this course?

Faculty:	Lei He
Response Rate:	**100.00**% (**12** of **12**)

1	maybe have more group talks within the table groups
2	There is nothing I would tell the instructor to improve because he was ver flexible and understanding.
3	The teaching was perfect
4	The instructor can improve the teaching of this course by explaining the graphs a bit more because that is where I personally struggled the most with the material.
5	Not much he has to do.
6	No improvements needed. Great teacher.

7	N/A	
8	Impossible, you cannot improve perfect!	
9	I think if he wanted to continue to do a quiz every class it should be due at the start of the next class not the night of the class due to kids going straight to work from school and not having time until the next morning to complete it.	
10	He could post all of the nearpods to practice for tests.	
11	Find a way to present the information in a more engaging way. The nearpod was a good thing. Maybe add more near pod questions?	
12	Do worksheets with the class or give us practice problems to work on
